PREFACE

The Standard Operating Procedures and Internal Controls is a document that outlines the business practices and administered by the Business Office pursuant to N.J.A.C.6A:23A-6.6. It is intended to be used as a reference manual by administrators, secretaries and any staff members that have Budgetary/Financial responsibilities. Its purpose is to provide an efficient control and accountability system that will help assure appropriate use of Public Funds. The principles of this manual are based on Generally Accepted Accounting Principles and rely on an assumption that individuals have a general understanding of the financial process of a School System. For this program to operate at optimum efficiency there must be a spirit of cooperation, teamwork and communication between the school staff and the Business Office.

OVERVIEW:

Internal controls are not separate systems of the school district. Controls are not an isolated activity but integral part of each activity used to guide the district.

Establishment, maintenance and evaluation of the internal controls are the responsibility of the administration. The evaluation of internal controls includes identifying the framework used by the administration to determine the effectiveness of the internal controls.

Controls are in place to detect or prevent errors and fraud. An error is an unintentional mistake that has the potential to affect the financial statements and fraud is the intentional misuse or misappropriation of district's assets.

OBJECTIVES OF INTERNAL CONTROL:

The three objectives of internal control are to ensure the effectiveness and efficiency of operations, reliability of financial reporting, and compliance with applicable laws and regulations. The safeguarding of assets is a subset of all of these objectives.

Continuous monitoring and testing is needed to help to identify poorly designed or ineffective controls. The administration is also responsible for communicating the objectives of internal control and ensuring the organization is committed to sustaining an effective internal control environment.

COMPONENTS OF INTERNAL CONTROLS:

The five components of internal controls include the control environment, administration's risk assessment, administration's communication of the controls, control activities and monitoring of the controls.

CONTROL ENVIRONMENT:

The control environment includes the organizational structure, the control framework, the district's policies and procedures and internal and external influences. The tone set by the school district's board and administration determines the attitude toward the controls of the district.

ORGANIZATIONAL STRUCTURE:

The organizational structure determines the administration's responsibilities and the sets the relationship with the board, which sets the policies.

CONTROL FRAMEWORK:

Elements of a control framework include the following:

Segregation of duties to help ensure the reliability of the organization's internal controls. One person should not have access to all stages of a process. If there is not proper segregation, situations could arise where errors or irregularities occur and go undetected.

Integrity and competence of the personnel performing the duties are key to achieving the desired controls. This includes hiring the proper people and continually training

SECTION I – INTERNAL CONTROLS

personnel. It is important to ensure that employees who perform financial tasks have the knowledge and skill to perform their duties.

Communication by the administration of the controls and the employee's responsibilities are as important as ensuring that employees know how to communicate irregularities that may arise.

Proper supervision of employees is needed to ensure proper execution of control activities.

DISTRICT'S POLICIES AND PROCEDURES:

The district's policies set the overall direction of the district. Procedures for all areas of financial preparation, reporting, operations, transportation, maintenance, personnel and payroll are needed. These policies and procedures will become the basis for the determination of compliance.

ADMINISTRATION'S RISK MANAGEMENT:

The administration has to conduct an assessment of risks relevant to the financial statements. This includes the identification of potential risks, the analysis of the potential impact of those risks on the ability to properly report the financial statements and the overall management of risks. Items to consider in the risk assessment of the district include, but are not limited to:

1. New personnel or new duties for existing personnel
2. How a change in accounting information system impacts controls and how effectively the training of personnel on new system was conducted
3. Changes in the regulations and laws that may affect the control environment
4. Record storage is appropriate and secure (fireproof cabinets when needed for manual documents and proper passwords and access limitations for electronic information)
5. District limits access to computers and data files
6. Segregation of duties
7. Transactions are recorded timely
8. Cash is deposited timely
9. Assets are physically safeguarded
10. Transactions are performed only by authorized personnel
11. Reconciliations are properly and promptly completed
12. Occurrences of management override

INFORMATION AND COMMUNICATION:

The administration needs to determine if the information systems utilized in the district are adequate and relevant for their intended purpose.

The district's administration is responsible for communicating the controls of the district and the responsibilities of each employee in the control system. The administration is also charged with reviewing information that may indicate a flaw in the controls that would not allow the control to detect an error in a timely fashion.

CONTROL ACTIVITIES:

Control activities include the policies and procedures that are in place to achieve the controls desired. Documentation of the control activities is vital to the overall control environment.

These activities include, but are not limited to:

1. Segregation of duties
2. Transactions are recorded timely
3. Cash is deposited timely
4. Assets are physically safeguarded
5. Transactions are performed by only authorized personnel
6. Reconciliations are properly and promptly completed

CONTROL ASSERTIONS:

Control activities can be categorized into one or more assertions. All assertions should be addressed for each process (payroll, cash disbursements, etc).

1. Existence (E) /Occurrence (O) – Existence is whether the assets or liabilities of the district exist at any given point in time (cash, state aid receivable). Occurrence is the whether the transaction took place (goods were received before the PO was moved to accounts payable from encumbrances)
2. Valuation (V) or Allocation (A) – Valuation is whether the asset or liability is included on the board secretary’s report at the proper value (the amount of cash or state aid receivable). Allocation is whether the revenue and expenditures were recorded in the proper amounts.
3. Accuracy/ Classification (A/CL) – transactions are recorded accurately and the classification of the transactions are proper.
4. Completeness (CO) – is whether all transactions are included (unrecorded purchase orders).
5. Cutoff (C) – Transactions are recorded at the proper time (purchase orders written in the proper year).

MONITORING:

The administration is charged with reviewing internal controls on an ongoing basis. Monitoring can include responding to the recommendation of the auditor in changes in the controls. Reviewing correspondence from outside sources such as banks and vendors for unusual items is part of monitoring.

Employees should be required to “sign off” on their understanding of the control activities and their responsibilities in those activities.

AFTER THE CONTROLS ARE ESTABLISHED:

Once the district establishes controls, those controls need to be evaluated at least annually and anytime circumstances dictate. Changes in personnel or regulations are examples of these.

SECTION I – INTERNAL CONTROLS

As controls are evaluated they will either be effective or ineffective at achieving the proposed control. Controls are effective when there would be no material weaknesses in internal controls involved in financial reporting. Ineffective controls would be those where at least one material weakness exists. If a control is determined to be ineffective, then the control deficiency needs to be evaluated.

CONTROL DEFICIENCIES:

A control deficiency exists when the design or operation of a control does not allow the administration to prevent or detect misstatements on a timely basis. A design deficiency exists when a necessary control is missing or is not designed to enable the control objective to be met. An operational deficiency exists when control is designed properly, but does not operate as designed or the person performing the control is not qualified to perform the control.

A deficiency may exist that is unavoidable (segregation of duties in a small office). For these, compensating procedures should be put in place. These compensating procedures do not correct the deficiency.

REASONABLE ASSURANCE AND LIMITATIONS ON CONTROLS:

Reasonable assurance is a high level of assurance, but is not absolute. The district should understand that potential fraud could exist and not be detected timely in the following circumstances: when the district has poorly designed or operated internal controls, or when there are too many overrides of controls, when there is collusion between employees or between an employee and a third party.

REVIEW OF DISTRICT PROCESSES:

When reviewing processes in the district, it may help to consider incorporating the “5 Ws”.

1. Who performs each activity? Who receives the outcome of the activities?
2. What activities are performed? What forms and reports are used? What computer systems and files are used?
3. When are activities performed? What is the sequence of activities? What is the timing of the activities? What is the frequency of the activities?
4. Where are activities performed (i.e., board office, school, etc.)?
5. Why are activities performed (i.e., what risks are controlled, what control assertion does process step serve, etc.)?

One final consideration should be whether any changes to the process will increase the efficiency of the process or firm up the controls.

CONTROLS LISTED:

The controls listed here are not intended to be a complete list of controls, as each district will have different processes, controls and concerns. These items should be used as a beginning for the review of controls.

Title: BUDGET DEVELOPMENT PROCESS

Procedure:

Annually, a budget calendar will be developed by the Superintendent of Schools and School Business Administrator. Budget parameters will be established by the Business Administrator as discussed with the Finance Committee and shared with the principals and supervisors.

Using historical data, known curriculum needs, district initiatives, and demographic information, principals and supervisors will annually propose amounts for each line item account in their area of responsibility. School budgets are the responsibility of the Building Principals / Supervisors. It is also the responsibility of the Building Principals / Supervisors to justify proposed expenditures in each of the line item accounts. Building Principals / Supervisors track their school accounts during the year making necessary transfer needed to ensure no accounts are over extended. If during the budget development process there is a need to reduce the school budget, the principal/supervisor will be notified of the reduced amount by the Superintendent of School and/or the Business Administrator. Below is a sample breakdown of the budget process:

- November - Budget materials provided to Building Principals, Supervisors, Directors
- Mid-January – Complied budget materials due to the Business Office.
- Early February – Superintendent and Business Administrator meet with Principals, Supervisors and Directors to review budgets.
- February – Superintendent and Business Administrator meet with Finance Committee of the Board of Education
- Mid February / Early March – Governor’s Budget Address: State aid figures released.
- March – Preliminary Budget due to County Office for approval
- April / May – Public Hearing on Budget

The annual budget includes overtime. The Business Administrator reviews overtime trends throughout the school year to determine if any transfers for overtime are necessary. Individual’s overtime must be pre-approved. The individual will complete a payroll voucher for overtime and use the time clock when applicable. The overtime must be approved by the individual employee’s supervisor and the Superintendent before overtime can be paid.

Requests must be submitted by e-mail or and signed hard copy using the **Budget Transfer Request** form. When requesting a transfer from one account to another, the "from" account must have enough money to cover the transfer, if not, then the transfer cannot be completed. Make sure the correct account numbers that need to be affected are used and fill in the description of the account. The reason for the transfer must be noted.

The Business Administrator will be responsible to maintain a record of cumulative transfers and report any transfers in excess of 10% to County Office. The report will be submitted to the County Office twice a year (December and June), or as needed to support transfers greater than 10%.

POSITION CONTROL

Position control is a process to measure the current status of positions for personnel services within the district in order to analyze their fiscal impact on the whole budget year. The impact of a position is determined by actual expenditures from the beginning of a fiscal year plus amounts set aside to cover appointments to the position for the remainder of the fiscal year.

The concept of position control implies that each position must be defined in specific terms and that the hiring procedure may not be completed until a specifically defined position exists for the applicant. Budget Status is determined by combining elements from the Position File, the Payroll Distribution File, and the Employee Data Base.

The base line year to use for position control is the snapshot date of February 1 of the prebudget year. Grouping should be established by budgetary function and object at a minimum.

The procedures as outlined in NJAC 6A:23-6.8 will be undertaken under the supervision of the School Business Administrator to develop a position control roster and maintain it in an accurate, complete and up-to-date fashion.

The School Business Administrator will routinely review reports to verify the accuracy of the documents and file for audit review.

A. Purpose

The purpose of this Standard Operating Procedure is to describe forms and procedures needed to assign position control numbers and create or abolish positions.

B. Scope

These procedures cover all positions and all employees of the district.

C. Authority

The assignment of PCN's should be initiated by the CSA. Human Resources in conjunction with the SBA should maintain a list available to the CSA when hiring or transferring employees for the district.

D. Position

A position is a set of duties and responsibilities specified in a specific job description assigned to be performed by an employee of the district. A position may be full-time, part-time, stipend, permanent/non-permanent, seasonal (summer school, after school, athletics, etc.) and either filled or vacant. A permanent position does not exist until it has been authorized and established by the Board of Education, Human Resource and the Office of Business Administration.

E. Position Control Number – Creating and Maintaining

Position Control data is maintained in the Business Office. It is recommended that monthly or semi-monthly before the payroll is processed a report or review be done of all employees being paid. This report or review should indicate at a minimum the individual's PCN and linked budgetary account(s) to be charged. Individuals not assigned a PCN must be assigned one and any vacant PCN should be noted for future reference.

F. Position Control Number (PCN)

A position control number (PCN) is created to represent each board approved contracted *position* within a district. These control numbers are attached to the budget spread, telling the system which account(s) the position is to be paid from. As the positions are filled, the corresponding control number is linked to the employee who is currently filling the position. Control numbers that are not linked to any employees represent vacant positions. An example: if your district has five board approved positions for high school math teachers, you would establish five PCNs to represent the five separate positions.

PCNs are independent of employee records. Each PCN represents a separate *position* within the district, *not* the employee who fills it at any particular time. Thus, if an employee leaves a position and the position remains open, the PCN remains active in the system representing a vacant position to be filled. Once an employee is hired for that position, the vacant PCN is then assigned to that person.

Vacant PCNs can provide an area where a projected estimated salary amount may be entered, providing the district with the ability to budget for positions that are expected to be filled. An assigned PCN will forward a calculated salary into the budget projection. As PCNs represent *positions* within the district, they are only added or deleted when a job position itself is either created or phased out.

G. Request for PCN for a New Position

Requests for the use of PCNs for new positions or to reactivate an abolished position shall include detailed justification and a cost benefit analysis. The Superintendent will determine if the new position is justified and that adequate funds are or have been budgeted. Based on this determination, the Superintendent will decide if a recommendation to the Board of Education will be made. The proposed PCN will be included in the recommendation to the Board.

H. Other

Each PCN shall be integrated with the payroll system to ensure that the correct budgetary account is charged. The PCN system should be able to track through payroll and the personnel system the position by account number, individual, PCN and the history of the use of the PCN.

Title: FACILITIES MAINTENANCE & REPAIR SCHEDULING AND ACCOUNTING

Purpose: *To have an automated work order system for prioritizing, performing and recording all maintenance repair requests for all district buildings and grounds.*

Whenever a school district employee wants to request a repair or an enhancement from the Buildings and Grounds Department, they should complete a maintenance request. The maintenance request should be generated by the person making the request.

Prioritization

The work order must first be approved by the building Principal and the Supervisor of Buildings and Grounds before any work is performed. The work orders will be performed in the following priority order:

- A. Emergency – An emergency is a situation that poses an imminent threat to the health or safety of occupants of school property which requires the immediate delivery of goods or the performance of services. Normal purchasing procedures may be waived in the event of an emergency.
 1. An actual or imminent emergency must exist requiring the immediate delivery of the goods or the performance of the service.
 2. Within three days, the superintendent shall inform the County Superintendent of the nature of the emergency and the estimated needs to respond to it.
 3. The emergency purchasing procedures may not be used unless the need for the goods or the services could not have been reasonably foreseen.
 4. The contract shall only cover the necessary tasks to alleviate the emergency.

- B. Safety – A safety issue exists when the issue could lead to the injury of any occupant of the building. Examples would include broken locks, water leaks, etc.
- C. High – A work order should be categorized as high if the situation is in violation of laws or regulations or board of education policy. Examples would include broken heaters or air conditioners in violation of “Indoor Air Quality” rules or PEOSHA requirements.

- E. Low – A work order should be categorized as low for requests that are new items, such as a new shelf.

Within each priority category, work orders should be completed in chronological order. The Buildings & Grounds Supervisor may group work orders in order to complete them in an efficient manner. The superintendent may authorize the completion of a work order in a priority order other than above.

Cost Benefit Analysis

Whenever the estimated cost of completing the work order, including labor and materials, is greater than the quote threshold, a cost-benefit analysis of outsourcing the work order shall be performed.

If the results of the cost benefit analysis indicate that it would be less expensive to outsource the work, the work shall be outsourced provided the work can be contracted in accordance with the Public Schools Contracts Law and it can be completed on time.

Completion Procedures

Labor & Materials:

The technician shall record the following for each work order:

- A. The actual hours worked by date.
- B. Whether those hours were at regular or overtime rate.
- C. The actual materials and supplies needed to complete the order.

The technician shall record these items either directly into the work order software or on the paper work order form and forward that form to the Maintenance Secretary for recording in the work order software. The work order should be marked as completed after the transactions are entered.

Close Out Procedures

The Supervisor of Buildings and Grounds shall review all completed work orders to ensure that they are properly classified and costed out for the Comprehensive Maintenance Plan. The work order should be marked as closed.

Planning

Prior to December 1st of each year, the School Business Administrator should conduct an analysis of the work order system to plan for the following budget year. The analysis shall include:

- A. Productivity of staff as a whole and individually.
- B. Variations between estimated and actual labor and materials costs.

Title: SAFETY

Purpose: *It is our goal to provide a safe and healthful environment for everyone that utilizes the district's facilities. This includes employees, students, and visitors to our district.*

Providing a safe environment goes beyond the obvious of properly maintaining buildings and grounds. A safe environment entails the attitude of the people occupying that environment. Therefore, we believe that safety is an attitude which must be cultivated and reinforced.

Procedure:

The Superintendent of Schools shall appoint a District Safety Coordinator with the responsibility of establishing and implementing a continuing effective safety program. The district goal is to eliminate lost time accidents. The program must involve all employees and students of the district. Employees should be involved through periodic safety meetings. Students should be involved through classroom instruction by the appropriate educators.

The Safety Coordinator shall organize a safety committee with at least the following employees involved to ensure all areas of the operation of the district are represented: Supervisor of Buildings and Grounds, Transportation Coordinator, School Business Administrator, a school nurse, principal and other staff deemed necessary.

The Safety Committee will meet periodically during the year. The Safety Coordinator will be responsible for working with the Safety Committee to define the safety program. However, these points must be covered:

1. Accident investigation and accident trend analysis.
2. Safety themes identified for use at meetings.
3. Remediation of hazards.
4. Modification to improper work methods.
5. Safety guidelines and specific rules for each area of each building in the district.
6. Proper PEOSH- 200 log maintenance.

Each employee and student will be responsible for obeying the safety rules established. Disregard of these rules will automatically cause a progressive disciplinary system to be enforced, which ultimately could lead to termination from the district.

WORK-RELATED STAFF INJURIES & ILLNESSES

Every employee is entitled to work under the safest possible conditions. In order to insure this, it is necessary that every accident/injury be reported.

All incidents/ accidents must be reported by the employee to their supervisor immediately if possible, but no later than twenty-four (24) hours after the incident occurs. In the case of injury an accident report must be filled out within twenty-four (24) hours. If there is an employee accident, the employee is to report it to the nurse/ supervisor and fill out the ACCIDENT/INJURY Form. If the employee needs medical treatment they will be directed by the school nurse to an approved medical provider.

If further specialized treatment is needed, it must be approved by the School Workers' Compensation physician who will refer the employee to a specialist for this treatment. Failure to go to the Board's doctor will result in a possible rejection of the claim. The school's workers' compensation doctor or the referred doctor will determine when the employee may return to work.

If the accident or injury is an emergency and occurs when the school nurse is not present, the employee may be treated at the nearest hospital and report the accident as soon as possible to his/her supervisor. The employee should instruct the hospital, doctor or pharmacy to forward all bills to Business Office (Workers' Compensation Claims). After examination or treatment by the workers' compensation doctor, emergency doctor or referred doctor, the employee must report back to work with the Return to Work Form.

STUDENT INJURIES

Any student who is injured will report to the school nurse. The school nurse will determine if medical treatment is needed. She/he will follow established procedures for contacting parents, and if necessary call for assistance. The nurse will report to the building principal any injuries caused by an event that may require follow-up disciplinary action, or that are due to an unsafe building condition.

LITIGATION/LIABILITY

Any incidents having the slightest possibility of potential litigation/liability must be reported to the Business Administrator immediately.

INJURIES TO VISITORS ON THE PREMISES

For injuries to visitors in the building or on the premises, the same procedure should be followed as for injuries to pupils, except the office of the Business Administrator will be notified as to when and where the accident occurred. It is important that in the description of the accident it is clearly stated that the injuries are not a staff member or student. Title: Financial and Human Resource Management Systems

Subtitle: Fiscal/Management Systems

Purpose: *Pursuant to 6A:23A-6.7 school districts and county vocational school districts with budgets in excess of \$25,000,000 or with more than 300 employees shall maintain an enterprise resource planning (ERP) system which integrates all data and processes of an organization into a unified system. An ERP system uses multiple components of computer software and hardware and a unified database to store data for the various system modules to achieve the integration. NOTE: This system does not include student, transportation or food service databases or modules.*

Procedure:

The following highlights important factors that should be considered when selecting an ERP system for the district. The Business Administrator and Board of Education will take these issues into consideration when the current ERP system utilized has become obsolete or is no longer practical for the district.

ERP System Integration Features

Three applications – comprise an ERP; accounting, payroll, and human resources system. System integration permits data sharing among the three applications, therefore eliminating any duplication of data entry. System integration features facilitate data sharing not only among the applications, but may also with third-party payroll, substitute placement/absence tracking, and bidding applications. Integration between these applications allows for the automation of many functions, enabling:

In Accounting

System-generation of the payroll purchase order and encumbrances at the start of each new fiscal year (salary amounts and expense account information from Payroll is used to create the file needed to generate the payroll PO encumbrances in Accounting).

Update/adjust payroll PO encumbrances throughout the year to reflect any staff/budget changes (updated salary/expense account information from Payroll is used to update payroll PO encumbrances in Accounting). Automatically reduce payroll PO encumbrances to expenditures each pay period. Import next year's budget preparation data directly into a Budget Projection Module (transfer of salary data either from Personnel, or a third-party application such as Microsoft Excel, into Accounting). Import purchase order data from third-party bidding applications (such as Educational Data) to Accounting, automating purchase order entry.

In Payroll

Automatically update new fiscal year payroll salaries for all employees (transfer of contracted salary data from Personnel to Payroll). Or synchronize remaining contract days that can be printed on employees' payroll check stubs (transfer of remaining sick/personal/vacation day balances from Personnel to Payroll).

In Personnel

Import attendance information. Implement position control codes (transfer of employee budget spread data from Payroll via alpha/numeric position control code for each employee record within Personnel). Automatically update position control budget spread information (based on payroll budget spread changes – transfer of updated budget spread data from Payroll updates Position Control Code budget spread data in Personnel). Generate projected salary data, by expense account, for budget preparation (transfer of employee salary data and Position Control Code budget spread information from Personnel to an Accounting's Budget Projection Module).

Payroll budget spread information can also be imported into Accounting from third-party applications. Those not utilizing system integration will obtain the payroll budget spread database file from their individual payroll provider instead.

Import Budget Preparation Data into a Budget Projection Module (Personnel to Accounting).

Accounting may include a budget projection module designed specifically to assist school districts with next year's budget preparation. This module includes a function allowing for the import of data (either from Personnel or a third-party application such as Microsoft Excel). This Projected Salary Data File (with the use of unique position codes, the system will automatically project, based on your district's settled contract information, the total amount needed for each salary expense account).

Bidding to Budget Transfer

(Third-Party Bidding Software to Accounting)

The District utilizes an outside bidding company. Educational Data assists with the process of procuring needed supplies for the upcoming year. Educational Data deals with the individual vendors and awards the bids based on district criteria. The data received from Educational Data bidding applications then needs to be entered into the district's accounting software application to generate the purchase order encumbrances. Entering these purchase orders can be time consuming and labor intensive. The Accounting system is able to provide a "Bidding to Budget Transfer" function.

Automatically Update New Fiscal Year Payroll Salaries for all Employees

(Personnel to Payroll)

At the beginning of each new fiscal year, salary information can be updated for all employees automatically. If system integration is used this should be an automated process for those districts that utilize both Payroll and Personnel applications. Personnel provides the ability to maintain historic, current and future year salary information, allowing Payroll to access this data when it is time to update individual employee salaries.

Implement Position Control Codes or Numbers (PCN), and Automatically Update Position Control Budget Spread Information (Payroll to Personnel)

Utilizing a synchronized Personnel and Payroll applications give the ability to implement position control codes, as well as automatically update position control budget spread information as necessary. Position Control Codes or Numbers (PCNs) represent distinct, board-approved, contracted job positions. The budget spread for each position is defined, providing a powerful in-house management and budgeting tool. Key benefits of utilizing PCNs include features that allow your district to:

- Validate current year budget appropriations against Personnel contracted salaries, by account.
- Present salary projection analysis to the board to assist with budget projection for the next fiscal year.
- Track and project the district's vacant positions, allowing for more accurate budget projections.
- Utilize employee budget spread information from Payroll to generate PCN in Personnel.

In short, a unique code is created to represent each board-approved contracted position within your district. These codes are referred to PCNs. The budget spread is attached to these codes, telling the system which account(s) the position is to be paid from. As the positions are filled, the corresponding PCN is linked to the employee who is currently filling the position. PCNs that are not linked to any employees represent vacant positions. For example, if your district has five board-approved positions for high school math teachers, you would establish five PCNs to represent the five separate positions.

PCNs are independent of employee records. Each PCN represents a separate position within the district, not the employee who fills it at any particular time. Thus, if an employee leaves a position and the position remains open, the PCN remains active in the system representing a vacant position to be filled. Once an employee is hired for that position, the vacant PCN is then assigned to that person.

Vacant PCNs provide an area where a projected estimated salary amount may be entered, providing the district with the ability to budget for positions that are expected to be filled. When a PCN is linked to an employee record, the calculated salary for that employee overrides the vacant salary amount entered for the PCN. As PCNs represent positions within the district, they are only added or deleted when a job position itself is either created or phased out.

Meaningful vs. Non-Meaningful PCNs

Determination

Once the aforementioned is reviewed and the priorities or direction of the district is established the Business Administrator should approach the Board of Education with their findings. The Board of Education should prior to determination, analyze the recommendation for ERP compliance, but make sure that all changes in procedure and process also adhere to Board of Education policy, maintain appropriate user authority and user access and district wide protocols for accessibility.

Internal Controls

The Board of Education should establish internal control procedures for all systems (fund accounting, personnel and payroll) regardless of true system integration or multi systems (many modules) integration. No one individual should have control within all systems. Annual review should be done via an internal control check.

Office of Floro M. Villanueva Jr.

*Board Secretary/ School Business Administrator/
Purchasing Agent*

TO: All District Employees

The purpose of this Purchasing Manual is to assist all Board of Education employees in the proper purchasing practices to be in full compliance with:

- New Jersey Public School Contract Laws Title 18A:18A, et. seq.;
- New Jersey Administrative Code N.J.A.C. 5:34 et. seq.;
- Board of Education Policy;
- Other federal, state law and code; and
- NJ QSAC.
- Local Finance Notices – NJ Division of Local Government Services

The Purchasing Manual is designed to achieve three (3) goals:

1. Follow the law and Board policy on purchasing;
2. Promote efficiency in the purchasing practices; and
3. Achieve savings of money through proper purchasing practices.

We ask you, the user of the purchasing system, to help achieve these goals through proper planning. Please allow yourself enough leeway between generating a purchase order and the actual date materials or services are needed. Please think of purchasing in terms of a whole year. What items and services do you need on an annual basis?

Through proper planning, we can eliminate much of the frustration that is encountered in all public school purchasing procedures.

This manual should be reviewed with department heads, teachers, secretaries, and others who are involved in the purchasing process. It is imperative that everyone adhere to all purchasing laws and guidelines.

If you have any questions concerning the following guidelines, please do not hesitate to call the Assistant to the BA/Purchasing Office, Extension 41112.

Thank you,

Floro M. Villanueva Jr.
Business Administrator,
Board Secretary, Purchasing Agent

PURCHASE ORDER PROCEDURES

Authority to Purchase

The purchase of goods and/or services by a board of education is governed by state statutes, administrative code and board policy. New Jersey State Law (18A:18A-2(b)) assigns the authority to the Purchasing Agent to make purchases for the board of education.

The Purchasing Agent is the only individual in the school district that has the authority to make purchases for the board of education.

The Closter Board of Education by board resolution has authorized Mr. Floro M. Villanueva Jr. to be the Purchasing Agent for the school district.

Authorized Purchases

All requests for purchases of goods and/or services must be made through an approved purchase order signed by the Purchasing Agent.

A purchase order, pursuant to State Law, is a document issued by the Purchasing Agent authorizing goods or materials to be ordered for the school district or work/service to begin. No goods or materials may be ordered or work/service be authorized to begin by any other individual in the school district other than the Purchasing Agent.

Unauthorized Purchases

Any Board of Education employee who orders and/or receives any materials, supplies or services without first going through the approved purchase order process has made an unauthorized purchase.

Unauthorized purchases are a violation of State Law and Board Policy.

Penalties listed below may be assigned by the Superintendent of Schools for unauthorized purchases:

Penalties for Unauthorized Purchases

Failure to comply with the proper procedures as delineated in the Purchase Order Manual will result in written notification to the staff member responsible for the error(s). Be advised that all unauthorized purchases may cause the employee to bear the sole financial burden of said purchase(s), at the discretion of the District.

Corrective Action for Non-compliance

If the Purchasing Agent has determined that an unauthorized purchase has been made, a memo will be sent to the responsible administrator advising the administrator of the unauthorized purchase. The Superintendent of Schools shall receive a copy of the memo.

The responsible administrator shall prepare a memo explaining the reasons why proper purchasing procedures were not followed. The memo will be attached to the purchase order and a copy of the memo will be sent to the Superintendent of Schools.

Corrective Action for Non-compliance (continued)

At any time, during the Corrective Action Process, the Superintendent may invoke the penalties for non-compliance.

A repeat offense of an unauthorized purchase by the same staff member within a school year will mandate that the staff member attend a special in-service workshop on proper purchasing procedures and any sanction that may be invoked by the Superintendent.

Miscellaneous:

Preview of Materials

All staff members must receive permission from administrators, supervisors, or principals to preview materials. After the preview process has been completed, the item must be returned. If there is a desire to purchase the previewed item, then a purchase order must be prepared for a new item.

Reimbursements; Employee

The Board of Education only recognizes an employee reimbursement purchase order when it pertains to pre-approved travel, meals, and conferences. The Board will not reimburse employees for items and goods personally purchased by the employee.

Student Activity Accounts

Purchases made through Student Activity Accounts may not be reimbursed with Board funds. Purchase orders made payable to Student Activity Accounts for the aforementioned purpose will not be signed by the Purchasing Agent.

E. Responsibilities of Business Office

The Purchasing Agent reviews each purchase order. Special attention is given to the following:

1. **Available Funds**-- Purchase orders are divided by account and are checked to determine if funds are available in the account. If not, the purchase order is returned by the Accounts Payable Specialist to the originator with a memo of explanation.

2. **What is being ordered and the cost**--The Purchasing Agent reviews the technical aspects of the purchase order to ensure compliance with State Law and Board Policy.

The Business Office checks the cost of each item and determines if it can be purchased from another vendor at a savings. The Business Office also reviews whether the purchase order exceeds:

The Quotation Limit	\$6,600.00
The Bid Limit	\$44,000.00

3. **Document Check – State Law**

Pursuant to various State Laws, the Purchasing Agent/Accounts Payable Specialist must ensure the following documents are on file in the Business Office before the purchase order is signed and processed:

- Affirmative Action Evidence – Contracts \$44,000.00 and over (cumulative).
- Business Registration Certificate (BRC) – Purchases \$6,600.00 and over.
- Chapter 271 – Political Contribution Disclosure Form (PCD) * Purchases over \$17,500.00 (cumulative).
- Completed Form W-9 – required of all vendors doing business with CBOE
- Certificate of Employee Information Report (AA302) – purchases 44,000 and over.
- Disclosure of Investment Activities in Iran – Any person or entity that submits a bid proposal or otherwise propose to enter into or renew a contract must certify that neither the person nor entity, nor any affiliates are engaged in investment activities in Iran.

*Administrators recommending contracts for professional/educational services are to secure the Chapter 271 PCD from the vendor when the vendor submits his/her proposal. The PCD must be forwarded to the Business Office.

A copy of the PCD is in the Appendix.

4. **Review of Purchase Order**--The purchase order request is also reviewed for technical aspects such as:

- a. Account number missing or incorrect;
- b. Shipping charges added;
- c. Signatures missing;
- d. State contract numbers incorrect/missing;
- e. Vendor address incomplete; and
- f. Other items as listed in Section A.

Incomplete or improper purchase order request will be returned with a memo explaining deficiencies. See copy of memo in Appendix.

If the Purchasing Agent is satisfied, he signs the purchase order request. The Business Office will then:

- Issue a purchase order number;
- Issue a vendor number;
- Enter the purchase order in the computer; and
- Mail the purchase order to the vendor.

The purchase order process, as explained, may take 2 - 5 days to complete. Please plan accordingly

5. **Transfer of Funds**--The Business Office processes purchase orders only if there are appropriate funds to cover the purchase. Purchase orders lacking sufficient funds are sent back to the originator for a request to transfer funds.

All transfers of funds have to be approved by the Board of Education at a public meeting.

Substantive transfers of money (more than 10% of the budget line item) must be approved by the County. Purchase orders that require a transfer of funds will be mailed to the vendors the day after the County Department of Education approves the transfers.

F. Responsibility of the Vendor

The Business Office sends to the vendor the purchase order and the voucher. The vendor is to sign the voucher and return it to the Business Office with an invoice. If you receive a signed voucher, return it to the Business Office. A check is prepared for the vendor once the Business Office has a

- Signed Voucher
- Invoice
- All Packing Slips
- Receiving Copy (Blue) Signed

G. Employees Prohibited from Signing Contracts

Board of Education employees are prohibited from signing any contract offered by a vendor.

The power to sign and execute contracts after Board of Education approval lies with the Board President and the Board Secretary.

Contracts signed by an employee shall be considered non-binding by the Closter Board of Education with the employee accepting full responsibility for the costs of the contract.

H. Contracts; Purchase Order Required

The award of contract to a vendor approved by the Board of Education at a public meeting does not automatically authorize any employee to use the services of, or purchase materials from, the vendor.

All contract purchases require the issuance of a purchase order authorizing the purchase of services and/or goods and materials from the vendor.

I. Cancellation of Purchase Orders

All requests to cancel purchase orders must be made in writing to the Business Office. Reasons explaining the need to cancel the purchase order must be outlined. The Purchasing Agent maintains the sole right to cancel purchase orders.

J. Private Purchases -- Prohibited

Goods and services procured by the Closter Board of Education are exclusively for the use of the Closter Board of Education. These goods and services are purchased through the signed purchase order process.

Employees of the Closter Board of Education are prohibited from purchasing privately goods and/or services off the bid prices and quotation prices offered by the vendors to the Closter Board of Education.

BIDS AND PURCHASING

A. Bid Limit -- \$44,000

The Closter Board of Education is restricted by New Jersey State Law on how much money can be spent by the district for the entire year on materials, supplies, and services.

This restriction is called the **bid threshold** or **bid limit**. The bid limit is \$44,000. This means that any specific item, class of items, and/or services of a similar nature, purchased by the school district totaling more than \$44,000 for the entire year must be competitively bid. This restriction is for the entire district and not by location or schools.

You cannot circumvent the law by splitting purchases to be under the \$44,000 bid limit.

If you find that your purchases may exceed the \$44,000 bid limit, please contact the Purchasing Office at once.

The formal bidding process takes about 6-8 weeks to complete.

B. Annual Bids

The Board of Education requests that central office department administrators and supervisors and school principals start to plan and prepare for Annual Bids. The proposed time lines are as follows:

- March* • Administrators/Supervisors prepare technical specifications to be reviewed by Purchasing Agent.
- April* • Purchasing Agent prepares final bid specifications to be drafted in a manner to encourage free, open, and competitive bidding.
- May/June* • Annual bids are received, opened and tabulated by Purchasing Agent.
- June* • Bid resolutions are prepared by Purchasing Agent for Board approval.
- July* • Purchase orders are generated by Administrators/Supervisors for August/September delivery.

Please note: The delivery of furniture usually takes place about 8-12 weeks after receipt of purchase order.

C. Bidding: Time Frame

As stated before, the formal bidding process usually takes about 6-8 weeks from start to finish. Please plan appropriately. An outline of the bidding process is located in the Appendix.

D. Exceptions to the Bid Limit

New Jersey State Law allows for some exceptions to the bid and quotation limits. There are approximately 20 exceptions where a Board of Education does not have to go for bid. Some of them are:

1. Purchasing through State Contract;
2. Professional services as outlined by New Jersey law;

*3. Textbooks, kindergarten supplies, student produced publications, library and educational goods;

*4. Legal notices, food supplies, milk, utilities, insurance, election expenses, travel and conferences.

* These purchases may be subject to the quotation process pursuant to N.J.S.A. 18A:18A-37(a) if practicable.

Please contact the Purchasing Agent for further explanation.

E. State Contract Purchasing

Pursuant to N.J.S.A. 18A:18A-10(a) a Board of Education may purchase goods and services through State Contract vendors. If the purchase exceeds the bid threshold, the Board of Education must adopt a resolution awarding the contract.

① *Office Supplies and School Supplies*

The Purchasing Agent will distribute separate memos highlighting State Contract vendors who sell Office Supplies and School Supplies. Please review these memos with your staff.

If you plan to purchase Office Supplies and School Supplies from a State Contract vendor, please follow the instructions on the memo.

② *Computers*

If you plan to purchase computers, please adhere to the following process prior to completing purchase order requests for computers.

- Contact the District Network Engineer

Please contact salvati@nvnet.org He will be able to assist you with the technical aspects and the State Contract requirements of purchasing computers.

- Contact the Supervisor of Buildings and Grounds

Please contact **Mr. Joseph Scaglione**. The Supervisor has to be apprised of all computer purchases to properly plan for electrical hookups. The Supervisor must approve requisitions for new computers before they are sent to the Business Administrator.

E. State Contract Purchasing (continued)

Purchase Orders--State Contract

All purchase orders made through State Contract vendors shall include the following:

1. State Contract Number;
2. Notification of Award;
3. Approved Price List; and
4. Shipping and Handling Included.

F. Professional Services/Professional Consultants

Although Professional Services, as defined in Title 18A:18A-5, do not require competitive bids or quotations, DOE regulations may require the Board of Education to obtain competitive proposals for any professional service.

All administrators who need professional services contracts are to contact Mr. Villanueva.

G. Emergency Contracts

Emergency Contracts are strictly regulated by N.J.S.A. 18A:18A-7. A situation must exist affecting the health or safety of the occupants of school property that requires the immediate delivery of articles or the performance of a service to alleviate the emergency.

The Emergency Contract process is reviewed in the Appendix. Please note that the Superintendent of Schools must be notified **first** of all emergency purchase requests.

Only the Purchasing Agent may award an Emergency Contract.

H. Cooperative Purchasing

The Closter Board of Education has contracted with Educational Data Services of Saddle Brook, NJ, to bid on items in the following categories on an as needed basis.

- | | |
|--------------------------|-----------------------------|
| 1. Office Supplies | 4. School Supplies |
| 2. Copy Duplicator Paper | 5. Art Supplies |
| 3. Science Supplies | 6. Industrial Arts Supplies |

The above categories are represented in a catalog that are sent to all schools and offices in the school year.

I. Purchases, Contracts Exceeding the Bid Threshold

Pursuant to State Law N.J.S.A. 18A:18A-5 all purchases and contracts exceeding the bid threshold of \$44,000, shall be awarded by board resolution at a public meeting of the Board of Education. This includes all items exempted from bidding and all State Contract purchases that exceed \$44,000. Only the purchase of textbooks and emergency contracts are exempt from this law.

Administrators and Supervisors must anticipate their needs as certain purchases once allowed just by purchase order now must be approved by the Board of Education first, then a purchase order can be signed and mailed.

J. Student Activity Account Purchases

Pursuant to State Law N.J.S.A. 18A:18A-5a(21), purchases made through Student Activity Accounts that exceed the bid threshold shall be awarded by the Board of Education at a public meeting.

Examples of items purchased through the Student Activity Accounts that may exceed the bid threshold are

- | | |
|---------------|-------------|
| • Class Gift | • Proms |
| • Class Rings | • Yearbooks |
| • Field Trips | |

A form has been developed to meet this requirement.

QUOTATIONS AND QUOTATION PROCEDURES

A. Quotations

The quotation limit (threshold) is now \$6,600. This means that any specific item or group of items of a similar nature purchased by the school district, totaling more than \$6,600 and less than \$44,000 for the entire year, must be *competitively quoted or advertised for bid at the discretion of the Purchasing Agent*.

You cannot circumvent the law by splitting purchases to be under the quote threshold.

B. Quotation Process

All quotations will go through the Office of the Purchasing Agent except for Building Services Department. Quotation proposals prepared by Building Services shall first be received and approved by the Purchasing Agent. When a quotation is deemed necessary, the Principal is asked to contact the Purchasing Office. The Purchasing Agent will review these quotation specifications to determine whether they are set up to provide open and competitive quotations.

Please note: The formal quotation process could take about 2-4 weeks from start to finish.

There will be no telephone quotations except in a case of extreme urgency.

C. Receipt of Two Quotations

Pursuant to N.J.S.A 18A:18A-37(a) the school district shall receive two quotations if practicable. Evidence of the quotation process shall be kept on file. A copy of the quotation shall be attached to the purchase order.

CLOSTER PUBLIC SCHOOLS

Board of Education

Governance and Operations Manual

Adopted: January 2023

Updated: December 2023

The Closter Board of Education has a unique and important role to play in assuring that the school system achieves the results expected by the community and deserved by the students it serves. The Board also recognizes that as an elected Board that represents and serves the people of the county, it must design for itself a governing process that allows it to exercise its responsibilities in a manner that assures that the staff, under the authority of the Superintendent, has the freedom and authority to do its work without interference but also has full accountability for the results of its decisions. And, the Board accepts the challenge to perform its own duties with the same degree of excellence expected of the Superintendent and staff members.

When operating effectively in accordance with this structure, the Superintendent and staff members are empowered to develop strategies and action plans to achieve both the specified Board of Education Goals and the Closter Public Schools District Goals.

DISTRICT BELIEFS AND MISSION

DEFINITIONS

Mission

The Mission is the overarching, ultimate goal for student achievement. It is the sum of more specific Board and District Goals, and will be the result of their attainment.

Operational Expectations

While the Mission and Student Achievement Goals are the major drivers of what happens in the school system, Operational Expectations speak to the expectations of the Superintendent and staff. Board Roles and Responsibilities

The School Board views its role to be different from any other entity associated with the school system. That role is defined in this statement.

BELIEFS

In Closter Public Schools, we believe:

- all students can learn and thrive academically, socially, and emotionally with support from staff, parents, and peers;
- skilled, caring teachers are the most important variable in the classroom and we should consistently provide resources to assist them in life-long learning;
- instruction should be differentiated and culturally responsive to address students' learning styles;
- in a strong home-school-community connection and respect Closter's diversity;
- open and honest communication is vital to creating a positive environment for all;
- in the value of diversity and pledge to create a positive culture that safeguards equity, inclusion, dignity, and respect for all.

MISSION

The Closter Public School District is dedicated to educational excellence. In partnership with the family, staff, and community, we are committed to meeting the educational needs of each child by providing the programs and environment necessary to:

- Enable every child to reach full potential
- Promote self-esteem, respect, responsibility, and appreciation of diversity
- Develop knowledge, skills, and academic achievement as per the New Jersey Student Learning Standards. (NJSL)
- Prepare each child for continued education and responsible citizenship
- Instill a lifelong passion for learning

OPERATIONAL EXPECTATIONS

GLOBAL OPERATIONAL EXPECTATIONS

The Superintendent shall not cause, allow, or fail to take reasonable measures to prevent any practice, activity, decision or organizational condition that is unlawful, unethical, unsafe, disrespectful, imprudent, in violation of School Board policy or endangers the district's public image or credibility.

The Superintendent shall maintain a system of continuous enhancement that ensures that improving the student experience is at the core of every decision.

The Superintendent shall track, measure, and evaluate effectiveness in realizing student achievement and improving business processes, according to both the Board and District Goals.

BOARD PURPOSE, ROLES AND RESPONSIBILITIES

ROLE OF THE BOARD

The general mandatory powers and duties of the Board are defined in Title 18A of New Jersey statutes. Other sections of the statutes state or imply that a local board of education has full power to operate the local public schools as it deems fit in compliance with state and federal mandates and pertinent laws of the municipality. The board functions only when in session.

The Board of Education sees these as its required functions:

A. Policy Oversight

The Board is responsible for the development of policy and for the employment of a Chief School Administrator who shall carry out its policies through the development and implementation of regulations. The Board is responsible for evaluating the effectiveness of its policies and their implementation. This includes setting and evaluating goals in educational and financial areas.

B. Educational Planning

The Board is responsible for requiring and acquiring reliable information from responsible sources that will enable it and the staff to work toward the continuing improvement of the educational program.

C. Provision of Financial Resources

The Board has major responsibilities for the adoption of a budget that will provide the resources in terms of buildings, staff, materials, and equipment to enable the school system to carry out its functions.

D. Interpretation

The Board is responsible for providing adequate and direct means for keeping the local community informed about the school and for keeping itself and the school staff informed about the wishes of the public. All planning, both that which is and that which is not related to the budget, needs to be interpreted to the public if citizens are to support the school program.

The Board believes that, by diligently exercising these functions, it will be able to provide the best educational opportunities possible for our children within the financial limitations set by the community.

The Board shall exercise its powers through the legislation of bylaws and policies for the organization and operation of the school district.

The Board shall be responsible for the operation of the school but shall delegate the administration to the Chief School Administrator, who shall be appointed by a recorded roll call majority vote of the full board.

The Board may hear appeals in complaints and in grievance and disciplinary actions as defined in these policies and in the law.

Concepts and Roles

The Board of Education believes that the effectiveness of the educational program of the school district depends fundamentally upon an acceptable philosophic base, a set of agreed-upon goals and detailed objectives consistent with those goals.

Wide participation in the development of statements of philosophy, goals, and objectives is not desirable. To guide the efforts of those participating under the leadership of the Chief School Administrator, the Board of Education adopts the following three definitions:

A. Educational Philosophy

Philosophy means a composite statement of the relationship between the individual, the school and society based upon beliefs, concepts, and attitudes from which the goals and objectives of the district are derived.

B. Educational Goals

Goal means a statement of broad direction or intent which is general and timeless and is not concerned with a particular achievement within a specified time period.

C. Objectives

Objective means a specific accomplishment to be reached that can be verified within a given time and under specifiable conditions which, if attained, advances the system toward a corresponding goal. This will sometimes be called goal indicator.

Board Responsibility

The Board of Education urges the Chief School Administrator to utilize the following process, with any desired adaptations, in establishing and evaluating the educational program:

- A. Assist the Board of Education in consultation with teaching staff, pupils, parents, and other district residents in establishing district educational philosophy, goals and objectives responsible to the needs of the students and community.
- B. Work with the Board of Education in formulating policies and determining regulations and procedures consistent with board policy which will best support instructional programs most appropriate to meet student and community needs.
- C. Recommend to the Board comprehensive plans and schedules for school program improvement including the allocation of necessary resources, commensurate with financial ability, toward achieving the Board adopted goals and objectives.
- D. Maintain a process of continuing assessment of the effectiveness of the instructional programs and school system operations. This process should enable the Board of Education to identify strengths and weaknesses and assess student progress, and to provide direction for correcting identified deficiencies both in the extent of student achievement and school district operations.

ROLE OF THE BOARD

It is understood that the members of the Board have authority only when acting as a board legally in session. The Board shall not be bound in any way by any action or statement on the part of any individual board member except when such statement or action is in pursuance of specific instructions from the board.

The Board shall make its members, the district staff, and the public aware that only the Board, acting as a duly constituted quorum at a legal meeting, has authority to take official actions. All other actions, whether individual or collective, have no legal or organizational basis.

Members of the Board shall adhere to the code of ethics for board members in bylaw 0142. No board member, by virtue of his/her office, shall exercise any administrative responsibility with respect to the schools or as an individual command the services of any school employee. Board members visiting the schools for any reason shall observe district regulations for all visitors.

EFFECTIVELY CARRYING OUT THE ROLE OF THE BOARD MEMBER

The Closter Board of Education has been elected to represent, lead and serve the community and hold itself accountable to them by committing to act in their best interests and by ensuring that all Board and district actions are consistent with laws and the Board's policies.

The Board is tasked with the important role of establishing and adopting district policies and supporting the Superintendent in his or her quest to effectively implement the adopted Board policies.

The School Board is responsible for policy review, amendment, and adoption. Any policy may be reviewed, amended, adopted, or rescinded by the Board at any time.

To effectively carry out that role, the School Board will support the district's ability to maintain a culture of high student achievement that is appropriately balanced with the district's commitment to each student social emotional health.

This will be accomplished by way of:

- Ensuring adequate access to those resources that are supported by research and vetting by way of best practice.
- Rigorously monitor performance against approved benchmarks and toward identified goals.
- Hire and regularly evaluate the performance of the Superintendent.
- Adopt budgets that support the Board's identified goals.
- Support the Superintendent's recommendations for hiring and maintaining a high performing, professional staff.
- Maintain a commitment to financially support professional development to ensure that all staff members have access to maintaining a culture of best practice, and are well equipped to implement the latest in thoroughly researched educational trends, particularly those associated with curriculum development, student centered instruction, data analysis and viable assessment development.
- Respect the value and importance of employees and employee organizations and reasonably involve them in decisions that affect them.

GOVERNANCE COMMITMENT

The Board will govern lawfully and strategically with long-term vision and primary emphasis on high student achievement that is appropriately balanced with the district's commitment to each student social emotional health.

- A. The primary purposes of the Board are to assure student achievement goals are met, and that the system operates effectively and efficiently as specified in the Operational Expectations.
- B. The Board will encourage full exploration of diverse viewpoints.
- C. The Board will hold itself accountable for its performance.
- D. The Board will monitor its performance periodically and engage in Board development to assure continuous improvement in its capacity to govern effectively. School Board members shall participate annually in high-quality professional development activities at the state, local, or national levels on governance, including, but not limited to, personnel policies and practices; curriculum and instruction; use of data in planning and decision making; and current issues in education as part of their service on the local board. Board members shall be reimbursed for expenses related to professional development activities and travel in accordance with NJDOE regulations. The School Business Administrator/Board Secretary shall make arrangements for members to attend conferences and meetings. All necessary expenses of attending, including transportation, meals, room, and registration fees, shall be charged against School Board-appropriated funds in accordance with NJDOE regulations. All reimbursements for these approved events shall be authorized by the School Board President and the Superintendent according to the timelines and policy established by the Board.
- E. The Board will focus on strategic leadership rather than administrative details, observe clear distinction between Board and Superintendent responsibilities, and give direction through majority decisions of the full Board rather than through individual decisions.

- F. The Board will communicate frequently and regularly with the residents, maintaining public trust through full and open communication.
- G. The Board will permit no officer, individual, or committee to hinder its performance or prevent the Board from fulfilling its commitments.
- H. The Board will govern legally, assuring that all actions are consistent with State and Federal laws and with the Board's own policies and commitments.

CODE OF ETHICS

The members of the Board of Education recognize that they hold authority not as individuals but as members of the board. In order to make a clear public statement of its philosophy of service to the pupils of the district, the Board adopts this code of ethics.

I will uphold and enforce all laws, state board rules and regulations, and court orders pertaining to schools. Desired changes should be brought about only through legal and ethical procedures.

1. I will make decisions in terms of the educational welfare of children and will seek to develop and maintain public schools which meet the individual needs of all children regardless of their ability, race, creed, sex or social standing.
2. I will confine my board action to policy making, planning and appraisal and I will help to frame policies and plans only after the board has consulted those who will be affected by them.
3. I will behave toward my fellow board members with the respect due their office demonstrating courtesy, decorum and fair play at all public meetings and in all public statements.
4. I will refrain from inappropriate conduct in public meetings and in making public statements, refraining from any disparagement of my fellow board members or others on a personal, social, racial or religious basis.
5. I will carry out my responsibility, not to administer the schools, but, together with my fellow board members, to see that they are well run.
6. I will recognize that authority rests with the board of education and will make no personal promises nor take any private action which may compromise the board.
7. I will refuse to surrender my independent judgment to special interest or partisan political groups or to use the schools for personal gain or for the gain of friends.
8. I will hold confidential all matters pertaining to the schools which, if disclosed, would needlessly injure individuals or the schools. But in all other matters, I will provide accurate information and, in concert with my fellow board members, interpret to the staff the aspirations of the community for its schools.
9. I will vote to appoint the best qualified personnel available after consideration of the recommendation of the chief school administrator.
10. I will support and protect school personnel in proper performance of their duties.
11. I will refer all complaints to the chief school administrator and will act on such complaints at public meetings only after failure of an administrative solution.

The board shall see that all members of the board receive training in understanding and adhering to this code of ethics and shall discuss it annually at a regularly scheduled public meeting. Each member shall sign documentation that he/she has received a copy of it and has read and understood it.

NEW JERSEY SCHOOL BOARDS BOARD MEMBER CODE OF CONDUCT

The Board commits itself and its members to ethical, businesslike and lawful conduct, including proper use of authority and appropriate decorum when acting as Board members.

1. Each member has the obligation to bring constituent issues or new initiatives to the Board President or the Superintendent, depending on whether the issue involves the Board's role or the Superintendent's role. However, each Board member is obligated to act in the best interest of the school system as a whole.

This obligation supersedes:

- any conflicting loyalty a member may have to other advocacy or interest groups;
- loyalty based upon membership on other boards or staffs;
- conflicts based upon the personal interest of any Board member or any member of their family; or
- any obligation to represent a particular constituency or subset of the county.

2. Board members may not attempt to exercise individual authority over the organization:
 - members will refer complaints back into the system, with notification to the Superintendent through the Board President. Members may facilitate constituents' navigation of the system without guaranteeing any particular resolution;
 - members will not give personal direction to any part of the operational organization;
 - when speaking on behalf of the Board, members will communicate only explicitly-stated Board decisions;
 - observe the chain of command established within the school and ensure that before a complaint is brought to the Board President or Superintendent, that the staff members most closely connected to the complaint are aware of the concern and have been given the opportunity to resolve it before moving it to the highest levels within the district.
3. To build trust among members and to ensure an environment conducive to effective governance, members will:
 - focus on issues rather than personalities;
 - respect decisions of the full Board;
 - exercise honesty in all written and interpersonal interaction, never intentionally misleading or misinforming each other;
 - recognize the positive and negative aspects of dissent and refrain from public criticism of the motives, thinking, and philosophy of other members, but may make their own views clear when in disagreement with a publicly stated decision of the Board;
 - not publicly disparage the Superintendent, staff, or members of the public;
 - make every reasonable effort to protect the integrity and promote the positive image of the system and one another;
 - never intentionally embarrass each other or the school system.
4. Members shall maintain confidentiality appropriate to sensitive issues and information that otherwise may tend to compromise the integrity or legal standing of the Board or the school system, especially those matters discussed in closed meetings.

BOARD MEMBER CONFLICT OF INTEREST

Board members are expected to avoid conflicts of interest involving all matters considered by the Board. A conflict of interest exists when a member is confronted with an issue in which the member has a personal or financial interest or an issue or circumstance that could render the member unable to devote complete loyalty and singleness of purpose to the public interest.

2. The Board will attend to consent agenda items as expeditiously as possible. An item may be removed from the consent agenda upon request of one member before the meeting is convened.

3. The Board will monitor the effectiveness of its meetings through a debriefing process at the end of every meeting as needed.

ELECTION OF SCHOOL BOARD PRESIDENT AND VICE PRESIDENT

All School Board members will conduct campaigns for leadership positions, or support for a candidate, with integrity and respect for all School Board members. The board president and vice president are elected during the reorganization meeting in January of each year.

ROLE OF THE BOARD PRESIDENT

The Board empowers the Board President to provide leadership to the Board by ensuring the integrity of the Board's processes, exercising interpretive responsibilities with integrity, fairness and impartiality—reflecting the spirit and intent of the Board in its deliberations—and normally serving as the Board's official spokesperson.

The President has the following authority and duties:

1. Support and monitor Board behavior to ensure that it is consistent with its own rules and policies and those legitimately imposed upon it from outside the organization:
 - conduct and monitor Board meeting deliberations to ensure that Board discussion and attention are focused on Board issues;
 - ensure that Board meeting deliberations are fair, open, and thorough, but also efficient, timely, orderly, and to the point;
 - lead Board meetings with all the commonly accepted power of that position as described in Robert's Rules of Order;
 - lead timely periodic self-assessments to ensure process improvement;
 - ensure that Board members are aware of and follow the established chain of command.
2. Facilitate sound Board decision making by anticipating and addressing Board and member needs.
3. Compile and facilitate the Board's summative evaluation of the Superintendent.
4. Except as otherwise provided in the section authorizing committee chairs to speak for the Board on specific matters, represent the Board as appropriate and serve as spokesperson for the Board in announcing Board-stated positions and in stating decisions and interpretations within the areas assigned to the President. The President may delegate this authority to other Board members when appropriate, but the President remains accountable for such delegation.
5. Execute all documents authorized by the Board, except as otherwise provided by law.
6. With the advice and consent of the Board, appoint the Committee Chairs, and/or liaison of all Board committees.
7. In collaboration with the Superintendent, establish the number and scope of Board committees on an annual basis.
8. On behalf of the Board, and in concert with the Superintendent and Business Administrator, develop proposed Board meeting agendas consistent with the Board's annual work plan.

The Board President has no authority to supervise or direct the Superintendent except as authorized by the Board.

When the Board President is not available, the Vice President shall perform the role and duties of the President. The Board President and Vice President shall work together to assure that the duties of the Board President are accomplished effectively.

BOARD LIAISONS

The Board may designate one or more of its members to serve as a liaison in connection with a specified activity or area of interest to the Board. Within the scope of the Board's designation, each such liaison shall function individually and may perform his or her designated responsibilities independently. Unless otherwise specified, an individual liaison may prepare alternatives, implications, or recommendations for consideration by the full Board.

BOARD COMMITTEES

The Board President, during his/her term of office, may appoint permanent and/or special committees at his/her discretion for determined periods of time. These appointments shall not exceed the President's term of office.

The functions of committees shall ordinarily be fact-finding, deliberative, and advisory, and their reports shall be made to the board for discussion and action. The function of such committees may be legislative or administrative when so authorized by special action of the Board. The Board President and the Chief School Administrator may be ex-officio members of all committees.

Meetings of such committees shall not be subject to the provision of the Open Public Meeting Act, provided that no more than four members comprise the committee.

The chief school administrator or any other member of the school staff may be consulted in the work of committees where their advice is needed.

Standing Committees

Since the details of operations are voluminous in nature, it is the board's policy to have members assigned to particular standing committees so that they may concentrate their efforts on a particular segment of board work.

This practice enables the whole board to benefit through the work and experience of each of its members who can better go into detail on committee problems and report back information and recommendations to the committee of the whole.

It also expedites liaison between the Superintendent and the Board between meetings. Minor problems which may arise can be solved through the Superintendent's working with a committee rather than having to contact the whole board.

Committee progress reports and recommendations for board action are presented at the regular, or the special meetings.

Special Committees/Advisory Committees

Special temporary committees of the Board may be appointed by the President or chosen by vote of the Board as need for such service may arise; the function of all such committees shall be fact-finding, deliberative, and advisory, but never legislative or administrative. The President of the Board and the Superintendent may be ex-officio members of all such committees, except when the Superintendent's tenure or salary is involved.

Special Committees of the Board

The Board may create one or more committees of the Board to perform delegated functions or to advise the Board. Among other tasks which may be assigned, Board committees may assist the Board by preparing alternatives, implications, or recommendations for consideration by the full Board.

PROCESS FOR ADDRESSING VIOLATIONS

The Board and each of its members are committed to faithful compliance with the provisions of the Board's policies. The Board recognizes that its failure to deal with deliberate or continuing violations of its policies risks the loss of confidence in the Board's ability to govern effectively. In the event of such a violation, the Board will seek remedy by applying any of the following measures:

1. Conversation in a private setting between the member in question and the Board President or other individual member:

If a Board member perceives that a fellow member has violated the policies or commitments of the Board, that member may address his concerns with the member who is perceived to be in violation. Alternatively, the member may refer the concern to the Board President. If the Board President is suspected of the violation, the concern would be referred to the Vice President. The purpose of this step is to attempt to resolve any perceived violations at the lowest possible level, involving the fewest number of individuals.

2. Discussion between the member in question and the full Board:

In the event of a serious or continuing violation by the same member, any member of the Board may request the President schedule a full School Board discussion with the charged member. The charged member will receive advance written notice of the discussion, including a statement of the alleged violation.

3. Possible removal from any leadership or committee positions to which the member in question has been appointed or elected:

To remove the charged Board member from a committee leadership or committee membership position, any member may request the President notify the charged member in writing of the scheduled School Board discussion of removal; the charged member shall be removed only after discussion and only on majority vote of the Board.

4. Statement regarding compliance with Operational Policies:

The School Board reserves the right to issue statements regarding the Board's interpretation of these policies and any instances of individual Board member's noncompliance, after notice to the individual and discussion and vote by the Board.

NEW BOARD MEMBER ORIENTATION

The Superintendent of Schools and Business Administrator will provide an on-boarding orientation to newly elected board member prior to taking the oath of office. In the interim between being elected and actually assuming office, new Board members shall be invited to attend all public meetings.

The Board President and the Superintendent will make the determination if the matter of legal advice is necessary. School Board members acting outside of this protocol, may be personally responsible for any legal fees.

MEETINGS

All gatherings of School Board members when sitting as a body or entity, or as an informal assemblage of five members or more, wherever held, with or without minutes being taken, whether or not votes are cast, are "meetings" under the Code of NJDOE, except for a gathering or attendance of any members of the School Board at any place or function where no part of the purpose of such gathering or attendance is the discussion or transaction of School Board business, and such gathering or attendance was not called or rearranged with any purpose of discussing or transacting any business of the School Board. When possible regular meetings of the School Board shall be held twice a month throughout the 10 month school calendar. All meetings shall be open to the public except when the School Board is meeting in Executive Session. The Board typically meets once a month in July, November and December.

- Special Meetings

Special meetings of the School Board may be called by the Board President, or the Superintendent, provided that all members are notified of the time and purpose 48 hours prior to the meeting unless a majority of the School Board agrees to meet upon shorter notice. Notice, reasonable under the circumstance, of special or emergency meetings shall be given to the public and the media at the same time the notice is provided to the members of the School Board.

- Executive Session

The NJDOE Code permits closed, Executive Session meetings in order to discuss specific matters. Executive Session meetings may only be held when no less than a quorum or majority of the School Board members are in attendance. At the conclusion of each closed meeting, the School Board shall reconvene in open session immediately thereafter and shall take a recorded vote to be included in the minutes of that meeting certifying that, to the best of the members' knowledge, (i) only public business matters lawfully exempted from open meeting requirements and (ii) only such public business matters as were identified in the action by which the closed meeting was convened were heard, discussed, or considered in that meeting by the School Board. Any member of the School Board who believes that there was a departure from those requirements shall so state prior to the vote, indicating the substance of the departure that, in his or her

judgment, has taken place. The statement shall be recorded in the minutes of the School Board.

- *Confirmation of Actions Taken in Executive Session*

- *Attendance*
Closed meetings may be attended by School Board members, Board Attorney, the Superintendent, and Board Secretary. The School Board may permit non-members to attend a closed meeting if such persons are deemed necessary or if their presence will reasonably aid the School Board in its consideration of a topic that is the subject of the meeting. The School Board may vote to dispense with the attendance of the Superintendent or his or her designee at a special closed meeting of the School Board.
- *Public Hearings*
The School Board may convene a public hearing as needed.

- Recessed or Adjourned Meetings

Meetings may be recessed and resumed at a later time or date. Such a meeting shall serve as a continuation of an established meeting and not a new one. Any meeting of the School Board may be adjourned to a specified time and place.

Meeting Procedures

The Superintendent in consultation with the Board President has the prerogative to limit or postpone discussion of new business until the next scheduled School Board meeting. The agenda and all supporting documents and information shall be made available to the Board Members in advance. Members of the public shall be given access to the agenda and all supporting documents that are not confidential, until such time that those confidential materials may be legally released.

Notice of all School Board meetings shall be given to the public to include electronic announcements through the media and posted in a prominent place in the School Board Office. Additions or deletions of meeting dates may be made to the calendar throughout the year, as necessary.

Citizen Participation

Members of the community are invited and encouraged to attend public meetings of the School Board to observe its deliberations.

At the beginning of every public Board meeting the Board President reads the following statement:

“The New Jersey Open Public Meetings Law was enacted to ensure the right of the public to have advance notice of and to attend the meetings of public bodies at which any business affecting their interest is discussed or acted upon. In accordance with the provisions of this act, the Closter Board of Education has caused notice of this meeting to be publicized by having the date, time and place thereof posted at each school building within the district, district website, the Board of Education Office, the Office of the Borough Clerk, and transmitted to The Record and Northern Valley Suburbanite newspapers.

BOARD SELF EVALUATION

The members of the board of education shall conduct an annual self-evaluation each year to determine the degree to which they are meeting their responsibilities as board members and the needs of their educational community. This self-evaluation shall be positive, frank and honest, and shall be used to establish priorities for action and specific goals and objectives to strengthen the operation of the board. The board shall use a multifaceted self-evaluation instrument.

SUPERINTENDENT/BOARD RELATIONSHIP

Understanding the role of, and interaction between a Board of Education and its Chief School Administrator is fundamental in effectively addressing the issues and concerns of a school district. Please use the link below to access the NJSBA brochure which explains the inter-related responsibilities of the board of education and the superintendent, and the role of each in community relations.

SUPERINTENDENT DELEGATED AUTHORITY

In cases where immediate action must be taken within the school system when the board has provided no guidelines for administrative action, the Chief School Administrator shall have the power to act, but his/her decisions shall be subject to review by the Board at its next regular meeting.

It shall be the duty of the Chief School Administrator to inform the board promptly of such action and of the need for possible additional policies or revisions of existing policies.

This notification will take place as soon as possible, but no later than the next scheduled Board meeting.

The Board will provide direction to the Superintendent through written policies that define the results to be achieved by students and define operational conditions and actions to be accomplished or avoided.

As long as the Superintendent uses a reasonable interpretation of the Board's goals and policies, the Superintendent is authorized to establish procedures, make operational decisions, establish instructional practices and initiate activities the Superintendent deems necessary and appropriate to achieve the Board's goals. The Superintendent is not expected to seek Board approval or authority for such decisions. The Board will respect and support decisions made by the Superintendent as long as they represent a reasonable interpretation of the Board's policies, even though such decisions may not have been the decisions the Board or its members may have made. By this policy, the Board delegates to the Superintendent the authority necessary to implement the goals and mission of the Governance Manual, subject to any approvals or actions specifically reserved to the Board in this Manual, other published policies, or the NJDOE code.

ACCOUNTABILITY AND EVALUATION

Superintendent Accountability

The Superintendent is accountable for the results of all decisions made within the Superintendent's area of delegated authority. The Superintendent has two major responsibilities upon which he will be evaluated. Those responsibilities are to assure that the school system makes reasonable progress toward achieving the Board and District Goals in regard to both Student Performance Goals and the agreed upon Operational Expectations. The Board will evaluate the school division's performance and credit the Superintendent with the results of that evaluation. Should any area of school division performance be determined unacceptable, due solely to conditions and factors beyond the control of the Superintendent, the Board agrees that the Superintendent's evaluation will reflect such determination.

Superintendent Evaluation

Formative Evaluation: The Board will establish an annual calendar and plan for its work, which will include scheduled monitoring throughout the year on progress and achievement of the Board and District Goals aligned with the Student Achievement Goals and the Operational Expectations. The Superintendent will provide thorough and detailed monitoring reports as agreed upon between the Superintendent and the Board.

Summative Evaluation: In June, the Board will review the prior year's monitoring documents submitted by the Superintendent. The Board will use these reports as a basis to develop an overall summative evaluation document of the Superintendent's performance. The summative evaluation document will include areas for commendation as well as areas that require additional attention.

Merit Goals (if applicable)

In addition to the annual evaluation based on Board and District goals, the board will evaluate the levels of achievement made toward the successful completion of the Superintendent Merit Goals. Merit goals are an additional contractual component of the Superintendent's employment and are not included in the annual performance review.
