

VIRTUAL OR REMOTE INSTRUCTIONAL PLAN

DISTRICT CODE 03-0930

SEPTEMBER 2022

Closter Public Schools

340 Homans Avenue

Closter, NJ 07624

201-768-3001

Vincent McHale, Superintendent

This plan has been developed in accordance with *P.L. 2020, c.27*. School will be in session for 180 days.

Introduction & Overview

In April 2020, Governor Murphy signed A-3904 into law (P.L.2020, c.27, or “Chapter 27”), which, in part requires each school district, charter school, renaissance school project, and Approved Private School for Students with Disabilities (APSSD), hereinafter referred to as Local Educational Agencies (LEAs), to annually submit a proposed program for emergency virtual or remote instruction (Plan) to the New Jersey Department of Education (NJDOE). In July 2022, the NJDOE readopted N.J.A.C. 6A:32, School District Operations, with amendments and new rules which includes updates to the components of the LEA’s Plan. This law provides for the continuity of instruction in the event of a public health-related district closure, by permitting LEAs to utilize virtual or remote instruction to satisfy the 180-day requirement pursuant to N.J.A.C. 6A:32-13.1 & 13.2.

The Closter Public School District is dedicated to educational excellence. In partnership with the families, staff, and community, we are committed to meeting the educational needs of each child by providing the programs and environment necessary to:

- Enable every child to reach full potential;
- Promote self-esteem, respect, responsibility, and appreciation of diversity;
- Develop knowledge, skills, and academic achievement as per the New Jersey Student Learning Standards. (NJSLS);
- Prepare each child for continued education and responsible citizenship;
- Instill a lifelong passion for learning.

Closter Public School District is committed to fostering and instilling a culture that personalizes learning, prepares students for high school, college, careers, and life, and supports confident, responsible citizenship.

In keeping with Closter’s commitment to providing our students with an exceptional education, this Virtual or Remote Learning Plan has been developed to guide the instruction and resources in the case of a school closure lasting more than three (3) consecutive days.

Our goal during any school closure will be to maintain the same full-day schedule that would be followed during the regular in-person school day and utilize a Zoom live-stream to provide instruction.

Access to Instruction

Virtual Day Schedule

Students will follow their regular school schedule on virtual days.

Hillside Elementary School	Tenakill Middle School
	Period
Log-in: 8:30-8:35 am	Log-in/Homeroom: 8:30 am
8:35 am - 3:10 pm: Students remain with their classroom teacher, except for specials, PLUS, ELL, related services and special education. Classroom teacher provides instruction in ELA, mathematics, science, and social studies.	1: 8:42-9:29
	2: 9:31-10:18
	3: 10:20-11:07
	4: 11:09-11:55
	5: 11:57-12:43
	6: 12:45-1:32
	7: 1:34-2:21
	8: 2:23-3:10

Hillside Elementary School Lunch Periods:

- Lunch/recess for Grade K, 1 & 2: 11:40 - 12:30 (50 minutes)
- Lunch/recess for Grades 3 & 4: 12:30 - 1:20 (50 minutes)

Tenakill Lunch Periods:

- Lunch/Recess for Grades 5 & 6: 11:09 - 11:55 (46 minutes)
- Lunch/Recess for Grades 7 & 8: 11:57 - 12:43 (46 minutes)

Total instructional time (minus lunch and recess):

HES: 5 hours 45 minutes

TMS: 5 hours 38 minutes

Guidelines for Remote Instruction

In the event of a school closure for three days or longer, **we will follow the same school in-person schedule using a virtual format.** By using a live, synchronous delivery method for instruction, teachers will be able to maximize student learning and growth. This will also provide students with some opportunities to interact with the teacher and their peers in a virtual environment. At some times throughout the day, teachers may direct students to work independently or asynchronously, which will allow the teacher time to work synchronously with small groups of students to provide differentiated instruction (similar to how small groups work during in-person instruction).

Access to Technology

- All instructional staff members have laptops with which they can provide instruction.
- Students in grades 5 - 8 have a school issued-Chromebook as part of the 1:1 initiative.
- We will provide students in PreK through grade 4 with a Chromebook so everyone has access to remote learning. A device pick-up time will be arranged for any student who will need a Chromebook.
- If a student does not have Internet access at home, we will provide a WiFi connection for the student. All students in grades K-8 who require a device for home-use will be provided with a Chromebook.
- Verizon mobile WiFi hotspots are available for students without access to the internet at home.
- Families can access low-cost or no cost internet through the Altice Advantage Program. Families can apply here:
<https://apply.alticeadvantageinternet.com/main>
- All students will use learning platforms that they are already using to sustain instruction: Google classroom, See-Saw, and Schoology.
- Students will be able to receive technical support with devices and exchange of equipment by contacting our Network Administrator, Vincent Salvati, at 201-768-3001, ext. 41134 or salvati@nvnet.org. Equipment exchange will be available regardless of building closure.

Delivery of Fully-Virtual or Remote Learning

The need for virtual or remote learning may vary throughout the school year. This plan would be implemented during a district closure lasting more than three consecutive school days due to a declared state of emergency, declared public health emergency, or directive by the health department or officer to institute a public health-related closure. We may need to pivot to remote learning for students who are required to isolate or quarantine. We may need to pivot to fully-virtual learning if there is a school-wide outbreak of contagious disease or if the Governor issues an executive order to transition to remote or virtual learning.

If there is a pivot to fully-virtual learning, teachers will provide students with a Zoom link to access their classes. Teachers will provide instruction daily using the 2022-2023 in-person period schedule.

Teachers will assess students' progress toward mastery of the lesson's objective through a variety of formative and summative assessments.

Remote Learning for Isolation

Only students who require isolation due to having tested positive for COVID-19 may access a live-stream of in-person instruction during the 2022-2023 school year. The school nurse and/or principal will approve remote learning for eligible students and will provide Zoom links for classes.

Addressing Special Education Needs During Virtual or Remote Instruction

Closter Public Schools will continue to meet our obligations to students with disabilities to the greatest extent practicable. During virtual or remote learning, Individualized Education Programs (IEP) and 504 Plans will continue accordingly with appropriate accommodations as documented in each student's specific plan. Case managers will communicate with families (via phone calls, email, or home visits) to ensure services are implemented in accordance with IEPs. Case managers and teachers will provide an opportunity for parents to pick up any necessary resources (books, materials, manipulatives, etc.) to give students appropriate special education access and support.

Related services (Speech, Occupational Therapy, Physical Therapy, etc.) will be provided to students remotely to the extent possible. If sessions are not provided during the time school is operating virtually, all sessions will be made-up when school resumes in-person. Related service providers will maintain logs of sessions to ensure students receive the services dictated by their IEP or 504 plan. Upon a return to in-person instruction, IEP teams will review student data and student progress to determine whether critical skills were lost during the period in which the school district delivered virtual or remote instruction to students and will determine the need for additional services to address the student's needs.

IEP meetings will be held either in-person or virtually depending on the guidance of the New Jersey Department of Education and New Jersey Department of Health during any health emergencies. During the 2020-2021 and 2021-2022 school years, most IEP meetings were conducted via Zoom. We will continue to use Zoom for virtual meetings whenever necessary, however, our goal is to have in-person meetings if possible. Meetings are defined as IEP meetings, evaluations, and other meetings to identify, evaluate and/or to re-evaluate students with disabilities.

Addressing English Language Learner Needs During Virtual or Remote Instruction

Classroom teachers and English Language Learner (ELL) teachers will collaborate to ensure a virtual learning program that is aligned with State and Federal mandates to meet the needs of ELL Learners.

Teachers will ensure timely and effective communication with caregivers and parents of ELL students including translation materials, interpretive services, literacy level appropriate information, digital learning platforms, and other technology resources. Communication from the district and school administrators will offer translation into the three languages most frequently spoken by Closter families: Hebrew, Korean and Spanish.

As with in-person instruction, our teachers will use a variety of learning strategies, including differentiated instruction and linguistic scaffolding, to ensure the same standard of education as their non-ELL peers.

In our District Diversity Council Action Plan for 2022-2023, there are action steps to include training for all teachers by the ELL teachers. We also have professional development opportunities for teachers to learn about social-emotional learning which could be used with students affected by forced migration from their home countries, if necessary.

Attendance Plan

School district policies for attendance and instructional contact time will accommodate opportunities for both synchronous and asynchronous instruction, while ensuring the requirements for a 180-day school year. Our goal is to provide synchronous instruction whenever possible. It is our expectation that students will participate in virtual or remote learning each day.

Students must log-into the teacher's Zoom classroom at 8:30 a.m. Teachers will take student attendance via Realtime. The school secretaries will coordinate remote attendance. If a student does not attend virtual or remote learning, the secretary or school nurse will contact the student's parents, via telephone, to determine what is preventing the student from attending school virtually.

Student attendance is required and actions will be taken if students are absent from school according to our district policy on attendance. Student participation is vital to ensuring student academic progress. Teachers or administrators will contact parents of students not meeting expectations for attendance or participation during virtual or remote instruction.

Facilities Plan

During virtual or remote instruction, our maintenance and custodial staff will be essential personnel and will report to the school each day (unless otherwise prohibited by direction from the New Jersey Department of Education or the New Jersey Department of Health). The maintenance and custodial staff will maintain all building systems for safety and continuity to avoid system failures. They will conduct building walkthroughs, will maintain, disinfect and make any needed repairs while the school buildings are not occupied by staff and students.

Food Service and Distribution

Closter has a very small number of free or reduced lunch students and does not have a contracted food service vendor. In order to ensure that free/reduced lunch students can continue to receive the nutritional sustenance necessary, we will provide the necessary meals in accordance with state and federal mandates through a local vendor.

Essential Employees

In the event that we are required to transition to virtual or remote learning, all employees will be considered essential. Based on the circumstances, the Superintendent will determine if district and school administrators, network administrator, faculty, certificated staff, school nurses, secretaries, maintenance and custodial staff will report to work in person (if permitted by the NJDOE and NJDOH guidelines) or if they will work from home.

Other Considerations

As indicated on NJDOE LEA Checklist for Virtual or Remote Instruction Programs for the 2022-2023 school year, the following considerations are explained below:

- a. Accelerated learning opportunities - We have an enrichment program at each school (Hillside Enrichment Program and Tenakill Enrichment Program). These programs will be delivered during virtual or remote instruction. Our rigorous STEM programs will also be delivered as part of the students' virtual or remote instruction.
- b. Social and emotional health of staff and students - We provide SEL programs through the ICARE program at Hillside School and the Advisory Program at Tenakill Middle School. Our school wellness teams have designed programs for teachers and students with a delivery of programs on Wellness Wednesdays. These would continue during a time of virtual or remote learning.
- c. Title I Extended Learning Programs - Currently, we have a small number of qualifying Title I students. We do offer Academic Assistance Programs

after school and would consider offering the programs during virtual or remote learning time, while trying not to have excessive screen time for students.

- d. 21st Century Community Learning Center Programs - Our district is not a rural or inner-city community and we are not eligible for this program. However, we have embedded 21st century skills into our curriculum.
- e. Credit recovery - As a PreK through Grade 8 district, our program is not credit bound.
- f. Other extended student learning opportunities - Our PTO offers enrichment courses for students after school and we would coordinate with them to offer these courses virtually.
- g. Transportation - We provide transportation services through Region III and in accordance with N.J.S.A. If any transportation is required during a time of virtual or remote learning, we will provide it.
- h. Extra-curricular programs - We offer athletic and extracurricular clubs to students, primarily in the middle school. These programs will be offered depending upon the guidelines set forth by the NJDOE and NJDOH during any health emergency that would necessitate use of emergency virtual or remote learning.
- i. Childcare - We offer before and after school care programs through a third-party vendor. If schools were operating virtually or remotely, we wouldn't have the need for these programs. However, if the NJDOE and NJDOH guidelines permitted students to be in the school building, we would coordinate with our service provider to provide childcare for parents.
- j. Community programming - We work with the Closter Nature Center to provide programs to students when in-person instruction is taking place. During virtual or remote instruction, we would coordinate with the Closter Nature Center to determine if any of the programs could be offered via Zoom or, if possible, in person.
